Join us to experience incredible vistas of one of Australia's last true frontiers as we access these remote regions few get the chance to see. Spectacular 'flightseeing' will take in the Argyle Diamond Mine, the Bungle Bungle Range, Lake Argyle and the Osmond, Carr Boyd & Ragged Ranges.

Amid the vast and ancient landscape of the East Kimberley region sits the untamed natural beauty of El Questro. From the rich red landscape of El Questro Wilderness Park, we fly to the rugged coastline of Berkeley River for a wilderness experience of refined luxury in one of the last true wilderness areas on earth.

DAY 3 | DARWIN - EL QUESTRO

Following breakfast, we board our private aircraft for a flight along the East Kimberley coastline. Below us passes a land of breathtaking contrasts covering billions of years in history. Comprising in total over one million square kilometres, Australia's North West is one of the last true wilderness areas on Earth. Known for sweeping landscapes defined by rugged ranges, dramatic gorges, semi-arid savanna and a largely isolated and spectacular coastline, the Kimberley is a sight to behold.

El Questro Wilderness Park extends for approximately 80 km north-south and 60 km east-west, totalling one million acres in size. Its landscape offers outstanding diversity - from rugged sandstone ranges and broad tidal flats, to rainforest pockets, gorges and permanent waterfalls. We begin with a visit to Zebedee Springs, a serene oasis of thermal pools and waterfalls set in the prehistoric forest of Livistona and Pandanus palms. Unwind in the inviting surrounds and for those interested, an opportunity to enjoy a soothing soak. This afternoon, we embark on a cruise through the Chamberlain Gorge.

During the cruise we will discover the diverse flora and fauna, resident rock wallabies, Johnston crocodiles and the always cheeky Archer fish, which are all familiar inhabitants of the gorge. Relax on the peaceful return journey at dusk when the colours of the Kimberley shine on the towering cliffs.
